PROJECTS

The Smoking Gun

Repository: <https://github.com/UWB-Bandits/the-smoking-gun>

Deployed: <https://the-smoking-gun.herokuapp.com/>

A customizable, digital bullet journal where users can store different kinds of information all in one place. Built mobile-first, this application will allow users to stay organized both at home and on the go.

- Created application branding guidelines and refactored code to standardize brand across all pages.
- Led development of list, habit tracker, and journal entry features.
- Designed a mobile-first user interface with a focus on accessibility.
- Collaborated with a team to develop concept and functional application using Kanban system.
- Monitored deployed application and addressed deployment bugs.
- Tested and standardized code through Travis CI.

Utilized: React, MongoDB, Mongoose, Axios, Express, Material-UI, Firebase, FullCalendar, Chart.js, Gravatar, Geolocation, various APIs.

gifNjelly

Repository: <https://github.com/TommyWillen/gifNjelly>

Deployed: <https://mighty-fjord-82642.herokuapp.com>

Users are able to caption gifs that are currently trending. They can then vote on previously created captions.

- Integrated data from a MySQL database into functional and responsive user interface
- Collaborated on backend development with a focus on Sequelize.
- Cooperated with a team through GitHub version control system.
- Solved roadblocks through research and team communication.

Utilized: SweetAlert, Handlebars, Giphy API, Express, Sequelize, MySQL, Passport, BCrypt, and Axios.

React Employee Directory

Repository: <https://github.com/aubrey-rigby/react-employee-directory>

Deployed: <https://aubrey-rigby.github.io/react-employee-directory>

Application utilizes randomuser.me to populate an employee directory. Users are able to sort or search by name, phone number, or email of employees.

- Leveraged React components to easily respond to user interaction and inputs.
- Independently developed both frontend and backend as the sole developer.
- Exceeded project requirements and expectations.
- Applied Bootstrap framework for responsive user interface.

Utilized: React, JSX, Axios, Bootstrap, randomuser.me.

EDUCATION

Bootcamp Certificate: 2021 University of Washington, Seattle, WA

Completed intensive 24-week program focused on building dynamic web programs.

Bachelor's Degree, Business Administration: 2017 University of Washington, Bothell, WA

Graduated Magna Cum Laude with concentrations in Marketing and Retail Management.
